## SUMMARY

Passionate software developer, enjoying writing code in JavaScript and building web API services on the backend and front end as well as writing unit test cases for TDD test-driven development and code debugging. Great team player accomplished three group projects to develop web applications. Known among the team for strong wit and attention to detail no matter the complexity of the project. Earned a Certificate of Completion through a rigorous University of Washington Full Stack Flex Online Program.

## TECHNICAL SKILLS

**Languages:** JavaScript, Java, HTML5, CSS3, SQL, NoSQL.

**Tools:** Git, GitHub, VS Code, JQuery, Bootstrap, Firebase, Node.js, npm, MySQL, MongoDB, Express, Handlebars.js, ReactJS, Progressive Web Applications, Lighthouse, Heroku, MERN, @apollo/server, GraphQL, Google, ChatGPT.

## PROJECTS

### Project Name | Quiz Maker

**Link to GitHub |** <https://github.com/TheBluWiz/quizmaker>

**Link to Deployed Project:** <https://quizmaker-app.herokuapp.com/>

- **About:** A QuizMaker is a coding project aimed at creating a user-friendly quiz generator that allows users to create and customize quizzes for a variety of purposes. The program is designed to be intuitive and easy to use.
- **Responsibilities:** Developing GraphQL, including defining models, resolvers, and typeDefs on the server-side, and implementing mutations and queries on the client-side using technologies such as Apollo Client and React. Implementing end-to-end functionality for user authentication using technologies such as JSON Web Tokens and bcrypt for secure password storage.
- **Technologies:** MERN (MongoDB, Express.js, React.js, and Node.js), GraphQL, @apollo/server, JavaScript, Tailwind, JWT, PWA (Progressive Web Application).

### Project Name | Goalie

**Link to GitHub |** <https://github.com/MaksimRazuvaev/your-goals-tracker>

**Link to Deployed Project:** <https://gp2-your-goals-tracker.herokuapp.com/>

- **About:** Application to share and view goals with peers using chart.js to be able to visualize the data. Live deployed on Heroku.
- **Responsibilities:** Creating project structure by using MVC (Model View Controller) concept. Writing API routes. Creating API requests from/to Handlebars pages to pass data to/from MySQL db. Handling API request on front-end with JavaScript. Implementing Handlebars Express NPM library functionality to add front-end interactivity. Troubleshooting and stabilizing the app.
- **Technologies:** Express.js NPM libraries: bcrypt, connect-session-sequelize, dotenv, express-handlebars, express-session, mysql2, sequelize.

**Project Name** | Funny Movie Gif

**Link to GitHub** | [https://github.com/MaksimRazuvaev/funny\\_movie\\_gif](https://github.com/MaksimRazuvaev/funny_movie_gif)

**Link to Deployed Project:** [https://maksimrazuvaev.github.io/funny\\_movie\\_gif/](https://maksimrazuvaev.github.io/funny_movie_gif/)

- **About:** Fun application that presents movie or tv show information, and related gifs to the user about the movie or TV show. Data requested from third party services over API.
- **Responsibilities:** Server side API requests(JavaScript). Data saving and displaying to/from local storage. Team efforts coordination on compiling code. Github branch merge compliance.
- **Technologies:** Third party CSS library and third party API was used. JavaScript handles API requests, local storage, fetch requests, promises, html dome display and traversing.

#### RELEVANT EXPERIENCE

**5G Mobile Network Tester at AT&T**

08.2020 - Present

**Net2Source INC**

Redmond, WA

Validation services in mobile networks against industry 3gpp standards.

Key Accomplishments:

- *Leaded efforts for one of the important projects in lab integration and was named one of the main contributors.*
- *Took responsibilities for defect management and was promoted to project lead after six months after joining the team.*

#### ADDITIONAL EXPERIENCE

**Software Quality Assurance Engineer at**

**Washington State Department of Licensing**

02.2019 – 07.2020

**CodeSmart Inc & People Tech Group, Inc**

Olympia, WA

Performing quality assurance efforts on new service implementation for web application.

Key Accomplishments:

- *Proactively contributed to the project and got an appreciation letter from the company.*

#### EDUCATION

**Boot Camp Certificate:** *University of Washington Seattle, WA, Full Stack Flex Online Program*

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS.

**MBA:** *Polytechnics University, Tomsk, Russia*
