MAKSIM RAZUVAEV

(206) 822-7701 | Email: maksim.razuvaev.wa@gmail.com | Sammamish, WA
LinkedIn:https://www.linkedin.com/in/maksim-razuvaev/ |GitHub:https://github.com/MaksimRazuvaev
Portfolio:https://maksimrazuvaev.github.io/React_Portfolio_Maksim_Razuvaev/

Passionate software developer, enjoying writing code in JavaScript and building web API services on the backend and front end as well as writing unit test cases for TDD test-driven development and code debugging.

TECHNICAL SKILLS

Languages: JavaScript, Java, HTML5, CSS3, SQL, NoSQL.

Tools: Git, GitHub, VS Code, JQuery, Bootstrap, Firebase, Node.js, npm, MySQL, MongoDB, Express, Handelbars.js, ReactJS, Progressive Web Applications, Lighthouse, Heroku, MERN, @apollo/server, GraphQL, Google, ChatGPT.

PROJECTS

Quiz Maker | GitHub: *GitHub Repo Link* | **Deployed:** *Deployed App Link*
- **About**: A QuizMaker is a coding project aimed at creating a user-friendly quiz generator that allows users to create and customize quizzes for a variety of purposes. The program is designed to be intuitive and easy to use.
- **Responsibilities**: Developing GraphQL, including defining models, resolvers, and typeDefs on the server-side, and implementing mutations and queries on the client-side using technologies such as Apollo Client and React. Implementing end-to-end functionality for user authentication using technologies such as JSON Web Tokens and bcrypt for secure password storage.
- **Technologies**: MERN (MongoDB, Express.js, React.js, and Node.js), GraphQL, @apollo/server, JavaScript, Tailwind, JWT, PWA (Progressive Web Application).

Goalie | GitHub:*GitHub Repo Link* | **Deployed:***Deployed App Link*
- **About**: Application to share and view goals with piers using chart.js to be able to vizualize the data. Live deployed on Heroku.
- **Responsibilities**: Creating project structure by using MVC (Model View Controller) concept. Writing API routes. Creating API requests from/to Handlebars pages to pass date to/from MySQL db. Handling API request on front-end with JavaScript. Implementing Hendlebars Express NPM library functionality to add front-end interactivity. Troubleshooting and stabilizing the app.
- **Technologies**: Express.js NPM libraries: bcrypt, connect-session-sequelize, dotenv, express-handlebars, express-session, mysql2, sequelize.

Funny Movie Gif | **GitHub:** *GitHub Repo Link*| **Deployed:***Deployed App Link*
- **About**: Fun application that presents movie or tv show information, and related gifs to the user about the movie or TV show. Data requested from third party services over API.
- **Responsibilities**: Server side API requests(JavaScript). Data saving and displaying to/from local storage. Team efforts coordination on compiling code. Github branch merge compliance**.**
- **Technologies**: Third party CSS library and third party API was used. JavaScript handles API requests, local storage, fetch requests, promises, html dome display and traversing.

RELEVANT EXPERIENCE

5G Mobile Network Tester at AT&T | Net2Sourse INC   08.2020 – 07.2023
Validation services in mobile networks against industry 3gpp standards.
Key Accomplishments:
- Leaded efforts for one of the important projects in lab integration and was named one of the main contributors.
- Took responsibilities for defect management; Promoted to project lead after six months after of joining the team.

Software Quality Assurance Engineer | CodeSmart Inc & People Tech Group, Inc   02.2019 – 07.2020
Performing quality assurance efforts on new service implementation for web application.
Key Accomplishments:
- Proactively contributed to the project and got an appreciation letter from the company.

EDUCATION

Full Stack Flex Online ProgramBoot Camp Certificate |University of Washington | Seattle, WA
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handlebars.js, and ReactJS.

MBA | Polytechnics University | Tomsk, Russia
